

Making the switch to Electric

PVM understand that making the transition to a green fleet will be a unique challenge from business to business. We can help make that challenge much easier by helping you to review your current contract hire vehicles and fleet policies and look at whole life cost comparisons, proving that making the switch to electric doesn't have to be a difficult.

We can fund electric and hybrid vehicles for any business, helping your fleet to make the transition into greener, low emission vehicles. With Pendragon electric contract hire we can help facilitate making the switch to electric, meet your particular business needs, provide a range of savings from fuel costs to tax incentives and provide your drivers with the latest electric vehicles.

WE CAN HELP YOU WITH

Evaluating your
fleets fuel mix

Whole life cost
comparisons

Salary sacrifice
green vehicles

A gradual
replacement
program

Updating your
fleet policy

THE BENEFITS
